About Us

We, R. S. Automation Controls, are marching towards acquiring a big name, fame and money in business by doing quality based production work. As a quality-conscious manufacturer, we employ the best-in-class machinery in the product development process. We are a strong believer in the fact that quality of base materials is very important in ensuring high quality of final product line. Hence, we partner with some industry leading vendors for having impressive in quality base materials to produce final range. We serve only supreme quality LPG Filling Machines. This is because of reliable base material sourcing network and complete in-house testing process.

We take extreme joy in the truth of being a leading name in and across Ballabgarh, Haryana, India for buying aforementioned products. Reason of this lies in our stringent control over quality of range. As serving simply the best to our buyers is major policy of company, we implement rigorous quality testing process. We make effective use of our well-equipped facility in analyzing quality and performance of our products. This helps us to guarantee our buyers about generating value for the invested money.

Key Facts

No of Staff	16
Year of Establishment	2011
OEM Service Provided	No

Our Products

**LOAD CELL 60060
340KG**

**LOAD CELL FLINTEC PCI
MODEL 200KG**

**DIFFRANTIAL CONTROL
VALVE**

**LPG Unit Filling
Machine**

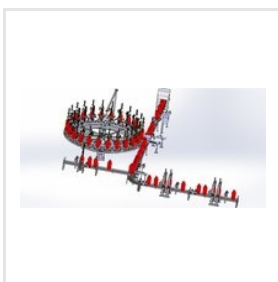

Weighing Module

**Intrinsically Safe
Weighing Module**

**LPG Unit Filling
Machine**

**LPG Carousel 10 AND 24
Point**

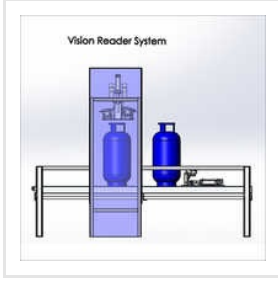

EJECTION UNIT

**LOAD CELL FLINTEC PC6
MODEL 200KG**

Check Scale 2020

Vision Reader System

**LOAD CELL FLINTEC PCB
MODEL 200KG**

SICK SENSOR TYPE

INTRODUCTION UNIT

**LPG Cylinder Valve
Bung Lead Detector**

ADDRESS

B No. MCF297, End Of Bohra Road, Bhagat Singh Colony, Faridabad, Ballabgarh, Haryana, India (121004).
